

FenyaMobile Pastel on the move

REMOTE ACCESS TO PASTEL

- ⇒ Staff in the field often have to come back to the office to specifically complete paperwork so that customers can get invoiced
- ⇒ No paperwork no invoice no payment

FENYAMOBILE

Provides access to

- ⇒ Customer data
- ⇒ Inventory
- ⇒ Stock levels

Creates

- ⇒ Sales Orders
- ⇒ Quotes
- ⇒ Invoices
- ⇒ Job Cards

Other functions

- ⇒ GPS data from the phone facilitates tracking

DATA INTEGRITY

Communications to and from the phone (3G) ensures that critical data reaches head office timeously thus ensuring that key processes are completed on time

COOL FEATURES

Mobile staff can access all their data remotely:

- Capture new customers, and change existing ones
- Access to stock levels and pricing
- Do quotes, invoices
- Capture job cards

Supports all current Windows mobile phones

Automatically synchronized with your Pastel with no need to return to the office

All too often customers are not billed for goods/ services because staff in the field have not come to the office to complete the paperwork. For cashflow critical businesses this is a major problem

FenyaMobile addresses this by allowing field staff to have access to all the data necessary to complete orders, quotes, invoices at the customer

Once saved this data is transmitted to head office and posted to Pastel as appropriate

This means customers can be invoiced timeously and field staff do not have to waste time and travel for unnecessary trips to the office.
